## **ACHIEVE A CONTEMPORARY LOOK WITH TRADITIONAL CABINETS**

*Shenandoah Cabinetry's® Grove® Collection Now Available in Cherry Hardwood*

**WINCHESTER, VA (January 2008)** – It is no secret that urban chic, loft-like design has been growing in popularity. However, what most homeowners don't realize is that the look can be achieved with traditional cabinetry. In January 2008, Shenandoah Cabinetry®, sold exclusively at Lowe's, accentuates the versatility of the Grove® collection by expanding it to include Cherry hardwood, offering a sophisticated look befitting of an urban setting.

The standard overlay door with a solid cherry, raised center panel gets its appeal from natural woods, providing a versatile look at an affordable price. It is available in both square and cathedral door styles, lending itself to either a contemporary or traditional look. The dark cherry hardwood adds a more modern feel to the collection and the Cherry Grove door can be beautifully accentuated with a Spice or Bordeaux finish, or a Chocolate glaze. In addition to Cherry, the Grove collection is also available in Maple, Oak, Hickory, and White Thermo Foil.

"Homeowners are trying to create a more urban, loft-like feel by tearing down kitchen walls to open up the space, exposing the kitchen to the rest of the home," says Connie Edwards, CKD, CBD, director of design for Shenandoah Cabinetry. "The Grove collection in Cherry offers a flexible choice for homeowners who desire that contemporary look without the lofty prices."
