**TIMBERLAKE® ANNOUNCES ELEGANT NEW PREMIUM FINISHES FOR
ITS SIERRA VISTA™ COLLECTION**

New Butterscotch and Cream Glazes on Painted Maple Offer Builders Exciting New Customizing Options

WINCHESTER, Va., (July 26, 2006) – Timberlake Cabinet Company™, a leading supplier of cabinetry to the new construction market, impressed builders in January with the introduction of its new Sierra Vista™ collection, featuring a stylish and sophisticated full overlay Mitered door. Beginning January 2007, Timberlake® will add an off-white painted Maple door to its Sierra Vista collection. The new painted Maple door features Butterscotch and Cream glazes, which will create a versatile look suitable for a casual or upscale setting.

The warm Butterscotch and soft Cream glazes accentuate the fine details of the solid hardwood construction of the painted Mitered door. In addition, Timberlake's proprietary coating process removes excess glaze from the door's flat surface, allowing the color to highlight the old world craftsmanship and quality of the painted wood.

"It's all about choice," says Connie Edwards, CKD, CBD, and Timberlake's director of design. "Homeowners want more variety to choose from. Timberlake's painted Sierra Vista collection with its new Butterscotch and Cream glazes gives builders yet another upgrade option to present to its homebuyers."
